WHY I LOVE MY HOUSE

My house is very beautiful and spacious. Though not very big, it is well-ventilated and well-lighted. It has a small courtyard in front and a backyard which about 12ft * 12*ft in size. A row of plants and seasonal flowers adores the front courtyard. The main gate is painted black and silver. The walls all over the house are painted white. The white marble flooring with green strips on the sides compliments the wall very well. The décor of her house is simple yet elegant. The kitchen has easy to use drawers and cupboards, all the windows and the doors are made of teak wood and are freshly polished. In short, my house is a haven of delight and comfort.
