## Letter/Application about Vanishing PlayGrounds in Cities

**Question:** People are migrating from rural areas to the cities in search of jobs. Consequently, in the fast-expanding cities, children find that their playing fields are shrinking or simply vanishing. **Write a letter to the Sports Minister of your state drawing his attention to this issue.** Make suggestions to cope with this situation. You are Amit/Amita Jain, 15 Mall Road, Delhi.

**Answer:**

15 Mall Road, Delhi,  
26th November, 20...,  
The Sports Minister,  
Parliament Street, New Delhi,

**Subject:** Vanishing of playgrounds in cities.

Sir,

The people of rural areas fail to find healthy ways of earning bread in their active villages because the land for cultivation has been acquired by the government. The people in large numbers migrate expanding. Every inch of vacant land is being constructed. The playing fields are not only shrinking but virtually vanishing. Take the example of *Nai Sarak* and *Chandni Chowk*, there is no playing field for the children worthy of the name.

# Performdigi.com

The physical growth of the children gets retarded in the absence of fresh air. **Green parks** and playing fields.

Kindly devote your attention to this vital issue. Please see that every school must have a playground and there should be a park in every locality.

Thanking you,  
Yours faithfully,  
Amit/Amita Jain
