**Subject:** Inadequate parking facilities in the commercial area of Jaya Nagar.

Sir,

Firstly, May I have the honor to draw your kind attention. Towards, the most **inadequate parking facilities**. Available to the people from every nook and corner of the work visit it for seeing. The different historical places. That tough the area for

different kinds of purchases? Consequently, the area remains almost busy round the clock. The Jantar Mantar, Palika Bazar, Botanical Garden, and other places add to the charm of this place. As a result, Often one can see foreigners trading in large numbers. However, the private, as well as locals, do not find ample space to **park** their vehicles **safely** and properly. If the same halted at an available near the Botanical Garden. But, it is quite insufficient. Even the pedestrians, find it difficult to cross the road. The local bus service too remains busy. And often the **traffic** gets jammed.

So, it is highly imperative on your part to arrange for **parking** spots. In this regard, traffic can be diverted. Some specific places can convert into parking zone. The pedestrians can provide separate paths as there is much space by the sides of the roads.

I hope my views will well consider removing the traffic inconvenience.

Yours faithfully,  
Rakesh/Radhika
