Subject: Poor Quality and Inadequate Supply of Drinking Water

Sir,

Through the medium of your esteemed newspaper, I would like to draw the attention of the concerned *authorities* to the problem of *dirty quality and inadequate supply of drinking water* in our area. It has been almost a month now that we have not received water for more than 15-20 minutes in a day and that too at very low pressure. And the *quality of drinking water* is not just bad, it remains worst. it stinks a lot. One can't drink it as it is the gateway to *hazardous diseases*. Therefore, the *residents* have been forced to summon private tankers to fulfil their daily *water demands* and this costs them almost Rs.150/- a day. Despite repeated complaints and appeals, no one has come forward to *remedy* this problem. The *situation* continues to get from bad to *worse*. I suggest that the concerned authorities should take up *effective* and *immediate* steps to find a solution to this very *major problem*.

I sincerely hope you will publish my *distress* letter in your newspaper so that the residents of our locality can get some respite from this major problem.

Yours truly
Karuna
